25X1 9. [] Jerome Levinson, Counsel, Senate Foreign Relations Subcommittee on Multinational Corporations, called to ask if the Director had an answer to Senator Church's letter requesting Bill Broe's appearance in open session. I said I expected the Director to be in touch with the Senator during the day.

Later in the day, Levinson called to say that they were very anxious for Broe's appearance tomorrow morning, 27 March. I explained this was contrary to what was agreed to between the Director and Senator Church earlier today. Levinson said that as a result of a misunderstanding, they had already sent out notices for the meeting and he could assure me that they would only cover the ground already covered in the exchange of questions and answers between the staff and Broe last week.

After consultation within the Agency and with the concurrence of the Director, I called back to say that we would agree to Broe's appearance in executive session under oath provided it was understood by all concerned that he would merely reaffirm what he had already unofficially stated in writing for the classified record. I said we would have no objection to having these answers declassified if the Subcommittee so desired.

Prentice asked that when we pull together our suggestions for Hatfield and Dellenback we send him a copy of the statement.

25X1 12. [] I talked to Hilda Schreiber, OMB, several times during the day indicating the Director's strong interest in early clearance of the quota legislation which was delivered to OMB this morning. She said she would do everything possible to clear it on an expedite basis.

13. [] Angus Thuermer called having received a call from Eileen Shanahan of the New York Times. She had just heard of Senator Church's announcement that part of Bill Broe's testimony was going to be made public and she asked if this had ever been done previously. I informed Thuermer that our records showed that Mr. Dulles had appeared publicly before the Joint Economic Committee in the middle 1950's and Gary Powers, though not an Agency official, had appeared publicly in 1962 before the Senate Armed Services Committee. Thuermer said he would call Shanahan back and felt he could get her to play down that part of her story.

14. [] Representative Ben Blackburn (R., Ga.) called and asked for the following reports which he understands have been prepared by the Agency: "Soviet Economy in General," "Soviet Sale of Gold and Gold Reserves," and "Soviet Trade and Agriculture." Blackburn wants to use these reports in his office even if they are classified. He was advised that we would look into the reports and call him back. The question of his retaining classified reports personally was not discussed.
